

Honey bee-visited plants categorized by their pollen value

All plants in this table are valuable nectar plants

Plant (species name)			Pollen production?
Apple (<i>Malus pumila</i>) Aster (<i>Aster</i> spp.) Birdsfoot trefoil (<i>Lotus corniculatus</i>) Alsike clover (<i>Trifolium hybridum</i>) Dutch white clover (<i>Trifolium repens</i>) Cornflower/Chicory (<i>Cichorium intybus</i>) Dandelion (<i>Taraxacum officinale</i>) Black Locust (<i>Robinia pseudoacacia</i>) Buckthorn (<i>Rhamnus</i> spp.)	Lavender (<i>Lavandula</i> spp.) Melon (family <i>Cucurbitaceae</i>) Mustard, field (<i>Sinapis arvensis</i>) Oilseed rape/canola (<i>Brassica napus</i>) Purple loosestrife (<i>Lythrum salicaria</i>) Raspberry (<i>Rubus</i> spp.) Red clover (<i>Trifolium pratense</i>) Lupins (<i>Lupinus</i> spp.) Vipers's bugloss (<i>Echium vulgare</i>)	Sanfoin (<i>Onobrychis</i> spp.) Star thistle (<i>Centaurea</i> spp.) Sunflower (<i>Helianthus</i> spp.) Sweet clover (yellow) (<i>Melilotus officinalis</i>) Tobacco (<i>Nicotiana</i> spp.) Vetch (<i>Vicia</i> spp.) Yellow rocket (<i>Barbarea</i> spp.) Goldenrod (<i>Solidago</i> spp.) Pussy willow (<i>Salix discolor</i>)	Valuable
Buckwheat (<i>Fagopyrum esculentum</i>) Carrot/Queen Anne's Lace (<i>Daucus carota</i>) Clover, crimson (<i>Trifolium incarnatum</i>) Flax/linseed (<i>Linum usitatissimum</i>) Honey locust (<i>Gleditsia triacanthos</i>) Maple (<i>Acer</i> spp.) Wild thyme (<i>Thymus serpyllum</i>) Willow, white (<i>Salix alba</i>)	Motherwort (<i>Leonurus cardiac</i>) Sweetpepperbush (<i>Clethra alnifolia</i>) Phacelia (<i>Phacelia</i> spp.) Poplar (<i>Populus</i> spp.) Snowberry (<i>Symphoricarpos</i> spp.) Soybean (<i>Glycine max</i>) Fireweed (<i>Chamaenerion angustifolium</i>)	Sweet clover (white) (<i>Melilotus albus</i>) Teasel (<i>Dipsacus</i> spp.) Tulip poplar (<i>Liriodendron tulipifera</i>) Virginia creeper (<i>Parthenocissus quinquefolia</i> spp.) Lavendar (<i>Lavandula species</i>)	Less valuable
Alfalfa (<i>Medicago sativa</i>)	Milkweed (<i>Asclepias</i> spp.)	Sourwood (<i>Oxydendrum</i> spp.)	Inadequate or not produced
Basswood/Linden, American or European (<i>Tilia</i> spp.) Black gum/tupelo (<i>Nyssa sylvatica</i>)	Hawkweed (<i>Hieracium</i> spp.) Live oak (<i>Quercus</i> spp.) Magnolia (<i>Magnolia</i> spp.)	Smartweed (<i>Polygonum</i> spp.) Sumac (<i>Rhus</i> spp.) Bur cucumber (<i>Sicyos angulatus</i>)	Unknown
* There are several other plants not included in this table from which honey bees collect pollen. The pollen value of these other plants have not been included either because their values have not been calculated in relation to the plants in this table so do not offer easy comparison, they have not yet been assessed for pollen value, or they are not considered valuable nectar plants.
